SUBJECT – MATH

We will be conducting Mathematics Oral assessment (Mental Math) for 10 marks based on the topics given for the Annual Assessment from 22nd February to 3rd March 2021. The schedule for the same will be shared at a later date.

SUBJECT – EVS

“We can’t see it, but we can see what it does.”

We take our air for granted, until something goes Wrong.

When your bedroom is messy, you can see it, but when the air gets messy —polluted—we can’t always see the mess.

Air pollution is due to the presence of tiny particles in the air that irritate our lungs and leave a fine dust on the things they land on. Air pollution can also be in the form of presence of some harmful gases in air. These gases can be harmful to us, to plants and to animals around us.

Clean air is important for our health.

When the air is clean, we can breathe more easily and be more active while running and playing outdoors. (People with asthma sometimes have a great deal of trouble breathing when the air is polluted.)

Since you are now aware of causes of Air Pollution and how you can control it, your task is to make others aware of it!

How???

Task 1 – Penning down your ideas

1. Take a light coloured A4 Sheet and **can we keep Air clean.**

2. Choose a title for your presentation.

3. You can represent the information in the form of **poster, poem, song, or can even write an article or paragraph about it.**

4. Colour and decorate your sheet.

5. Mail it to your EVS Teacher before 22nd February, 2021.

prepare a presentation on theme - **“How**

Task 2 – Oral Presentation

As, now you have represented your thoughts on A4 Sheets, your last task is to prepare an **oral presentation** of about 1-2 minutes on it.

You can dress up and use props according to your theme while you are giving the oral presentation in your online EVS class.

Kindly find the assessment criteria for the **Project** –

Marks	2.5	2.5	2.5	2.5
Criteria	Presentation (Written)	Relevancy to content (Written)	Fluency and Clarity of Speech (Oral)	Confidence (Oral)
